SKILLS & WORK EXPERIENCE

Achievements

Developed and registered intellectual rights to Smart Edu online education platform (<https://edu-smart.uz/>) that provide the following services:

1. The admission process of the training center in the system is based on an individual approach and has a very simple appearance. Two different registration methods are used in the admission process. The first method is a simple (temporary) registration method, in which students who have expressed a desire to study at a training center and are waiting for groups to complete their courses or who need to be contacted are registered. is obtained. The second method is the actual (permanent) enrollment method, which enrolls students who have passed the test courses of the training center and expressed a desire to continue their studies at the training center.
2. Among the temporarily registered students, those who have passed the test courses and wish to continue their studies at the training center are permanently registered and assigned to groups appropriate to their level of knowledge, or a new group is formed on their basis.
3. The system provides electronic attendance of all students studying at the training center, sending daily attendance figures to their personal account, telegram account, parents' phone numbers in the form of SMS notifications, export attendance reports to excel and any monthly attendance. It is possible to obtain indicators in the form of reports.
4. The smart lesson schedule in the system automatically generates a lesson schedule based on the days of the week you set, class time, and attached classrooms. This will save you a lot of time spent preparing a lesson plan and is a simple solution to the mistakes in creating it.

Developed an IDM System

Platform (<https://rating.idm.uz/> and <https://narx.idm.uz/>) that provide the following services:

1. Data are collected in the system from various sources: information systems, information resources and databases through their mutual integration and with the help of Excel files.
2. Data collected from government agencies and organizations are processed.
3. The information provided by government agencies and organizations is summarized.
4. Reports are issued based on the data.
5. Sending out confirmation emails to respondents upon submission.
6. Automatically calculate prices and quantities for products and services.
7. Send automatic notifications to team mates whenever a form is submitted
8. Receive email notifications of submissions based on your preferred schedule.
9. Export data to Google Sheets, and as Excel and PDF.
10. Gain insights from forms and submissions with Analytics. View data such as unique form views, top devices, browsers and more.

Developed Avto Start Platform

Platform (<https://avtostart.uz/>) that provide the following services:

1. Automatic creation and scheduling of groups, lesson schedules.
2. Full monitoring of the learning process (attendance, student achievement).
3. Payment tracking (view payment history, send reminders to students).
4. Online student monitoring.
5. The system is integrated with the State Inspectorate for Quality Control in Education of the Republic of Uzbekistan and automatically submits various forms of reports.
6. It has reports and statistics analysis and many other functions for the head of the institution.
7. Ease of use of software products is developed in a separate design.
8. An animated and textual explanation of each question and answer.
9. Students' mastery of topics by teachers and their constant retention of test results.
10. Protected from external interference during the final test.
11. Continuous maintenance of final results.
12. Students can take the final test at any time and there are many other conveniences.

Computer Skills

Microsoft Office (Word, Excel, Power Point & etc.) OPERA PMS, Micros Fidelio, ACOM Hospitality, Adobe Photoshop, 1C

Web Programming Skills

Html , css , css3 , javascript , jquery , bootstrap 3 , bootstrap 4 ,Cass, SQL , MySql , Php , Yii2 , Ajax , Laravel , Angular , Wordpress, Telegram Software Skills (Bots creation and SMM)

2020 Oct – 2022 March

Head Specialist in Department of Information Technology

Ministry of Investments and Foreign Trade of the Republic of Uzbekistan

- ✓ Work across teams to ensure high productivity, reliability, and scalability of applications
- ✓ Develop metrics and KPIs to quantify product quality and engineering efficiency
- ✓ Design & develop CI/CD pipelines & ensure source code control management
- ✓ Perform architectural/code review & validation, code deployment, etc in phased releases
- ✓ Provide suggestions for potential projects that can bring impactful results | Knowledge of Database Technologies, Release Management, REST, SRE, etc.
- ✓ Work closely with the project owners and development team to complete projects promptly

2020 Jun – 2020 Oct

Head Specialist in Department of Information Technology

Ministry of Investments and Foreign Trade of the Republic of Uzbekistan

- ✓ Design and build efficient intuitive front-end applications
- ✓ Work with product managers, designers & engineers to deliver quality products
- ✓ Interact with clients' technical leadership, understand the requirements & execute them
- ✓ Collaborate with stakeholders and clients to determine requirements, development processes, and plan the delivery roadmap
- ✓ Troubleshoot and fix any issues found in existing PHP programs
- ✓ Communicate with cross-functional teams to ensure smooth operations of web processes and infrastructure
- ✓ Write PHP scripts to facilitate client systems to meet performance and objectives
- ✓ Assist the QA team to prepare software testing for client applications
- ✓ Create and maintain documentation for development cycle and code
- ✓ Write or modify client software with the help of source debuggers

2019 Oct – 2020 Jun

Programmer at « ORIENT SOFTWARE TEAM»

- ✓ Participate in the design and development of websites
- ✓ Collaborate with web designers to develop user-facing features and strong frontend user experience
- ✓ Work closely with other cross-functional teams and stakeholders to deliver effective software solutions
- ✓ Participate in application optimization for enhanced performance, scalability, and high availability
- ✓ Ensure the technical feasibility of UI/UX designs and assist in translating visual ideas into effective code
- ✓ Stay updated with the latest industry trends and technologies

2018 Oct – 2019 Feb

Programmer at in Department of Information Technology

ACADEMY OF SCIENCES OF UZBEKISTAN

- ✓ Work closely with the UX team and build innovative, cutting-edge applications
- ✓ Build and maintain all applications using standard development tools
- ✓ Utilize backend data services and contribute to increasing existing data services API
- ✓ Provide suggestions for potential projects that can bring impactful results
- ✓ Knowledge of Database Technologies, Release Management, REST, SRE, etc.
- ✓ Work closely with the project owners and development team to complete projects promptly

2017 Sep – 2018 Feb

Programmer at in Department of Information Technology

Supreme Attestation Commission at the Cabinet Ministers of the Republic of Uzbekistan

- ✓ Develop, web platform documentations and back-end structures, and maintain web-based applications
- ✓ Work closely with the UX team and build innovative, cutting-edge applications
- ✓ Build and maintain all applications using standard development tools
- ✓ Utilize backend data services and contribute to increasing existing data services API
- ✓ Keep track of all the task progress, evaluations, suggestions, schedules along with technical and process issues
- ✓ Maintain documentation of the entire development process, architecture, and standard components
- ✓ Keep abreast of new trends and best practices in web development

2016 Feb – 2017 Sep

Programmer at « SOFTWARE DESIGN »

- ✓ Participate in the design and development of websites
- ✓ Collaborate with web designers to develop user-facing features and strong frontend user experience
- ✓ Work closely with other cross-functional teams and stakeholders to deliver effective software solutions
- ✓ Utilize backend data services and contribute to increasing existing data services API
- ✓ Stay updated with the latest industry trends and technologies
- ✓ Maintain documentation of the entire development process, architecture, and standard components
- ✓ Keep abreast of new trends and best practices in web development

2014 Feb – 2016 Sep

Programmer at « NEW STAR BUKHARA » web programming company

- ✓ Know HTML, CSS, JavaScript, PHP, and other relevant web design coding languages
- ✓ Create and test applications for websites
- ✓ Collaborate
- ✓ Present design specs
- ✓ Work with graphics and other designers
- ✓ Troubleshoot website problems
- ✓ Maintain and update websites

- ✓ Monitor website traffic
- ✓ Stay up-to-date on technology
